

SUPER D2

Auto Leveller Drawframe

***A SIMPLE STEP AHEAD...
WITH ENHANCED FEATURES...***

***SHAPING FIBRES
- DEFINING QUALITY***

Group Synergy

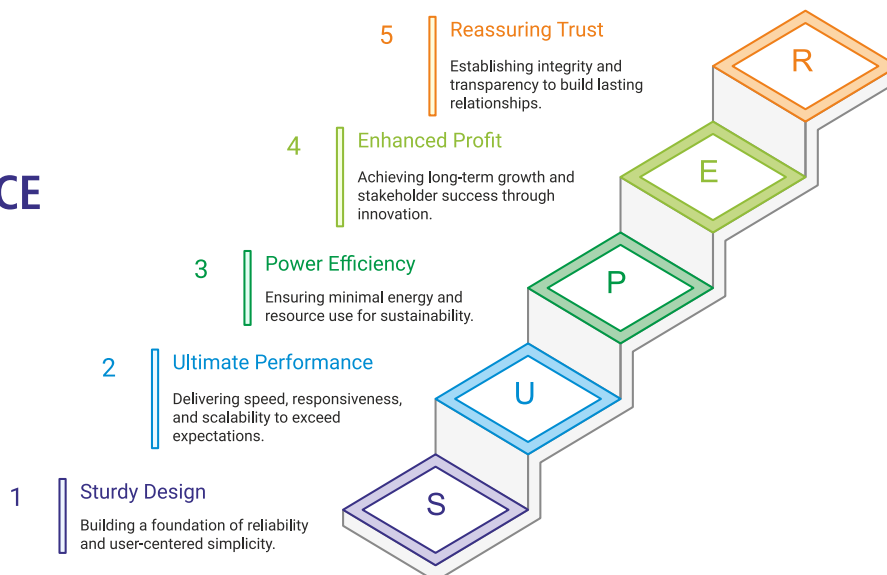

Super Group as it stands today, was started way back in 1984 with a vision to become one of the most advanced machinery manufacturer in the field of Textile and General Engineering.

Our successful technological advancement in the manufacturing of Sliver and Apparel yarn machines for more than two decades, has motivated us towards the development and manufacture of highly advanced Autoleveller Drawframe, SUPER D2 to target the global markets.

We are an extremely motivated team, having top quality infrastructure, to meet out all the requirements from Research and Development, and maintaining High Quality / Production Standards and excelling in Customer Service.

WORKING EXCELLENCE

**YOUR
TRUSTED
PARTNER**

Evolutionary Advancement of ***SUPER D2***

Highly advanced
autolevelling control at
Start / End and intermittent stoppages
resulting in higher and consistent silver quality.

OPERATIONAL EXCELLENCE

- Direct Encoder Feedback
- Ergonomic Design and Compact Space
- Innovative D2 Trumpet for Automatic Sliver Insertion
- Superior Trash Removal
- Better User Friendliness
- Reduced NVH levels (Noise Vibration Harshness)
- WI-FI Enabled Android / Iphone Connectivity for HMI Control

SUPER D2

Auto Leveller Drawframe

POSITIVE DRIVE CREEL WITH
SUPER SMART SENSOR
STOP MOTION CONTROL

EASILY ACCESSIBLE
CONTROL STATION

SIGNAL LAMP INDICATION
FOR MACHINE
OPERATIONAL CONDITIONS

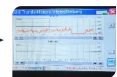

MOST RELIABLE TONGUE
& GROOVE SYSTEM FOR SCANNING
INFECT SLIVER IRREGULARITIES
@ EVERY 1 MM

ALL PARAMETERS ARE
DIGITALLY MONITORED & CONTROLLED
AND EASILY ACCESSIBLE BY
TOUCH SCREEN INTERFACE

FUTURE ENVISIONED
DRAFT ZONE

INLINE QUALITY MONITORING
SYSTEM ENSURES PRECISE
SLIVER IS DELIVERED

CAN DIMENSIONS AT DELIVERY :
UP TO 1000 MM
UP TO 8 DOUBLING

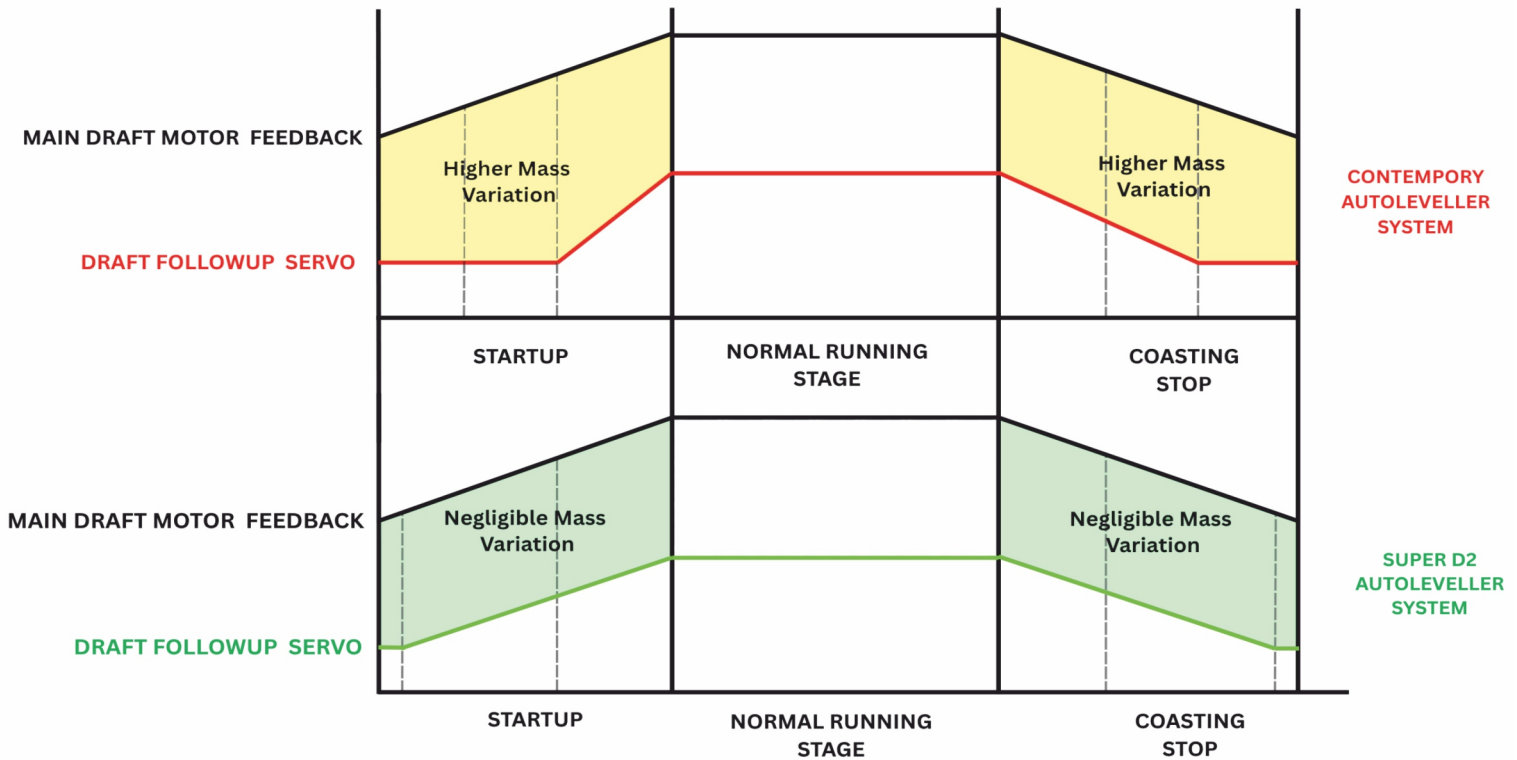

SUPER VACUUM
CLEANING SYSTEM

ERGONOMICALLY DESIGNED
PLATFORM FOR
MACHINE OPERATIONS

CAN DIMENSIONS AT DELIVERY :
DIA 12" TO 24" (300-600 MM),
HEIGHT 36" TO 48" (910-1220 MM)

SUPER D2 - QUALITY ASPECTS

CONTEMPORARY AUTOLEVELLER SYSTEM

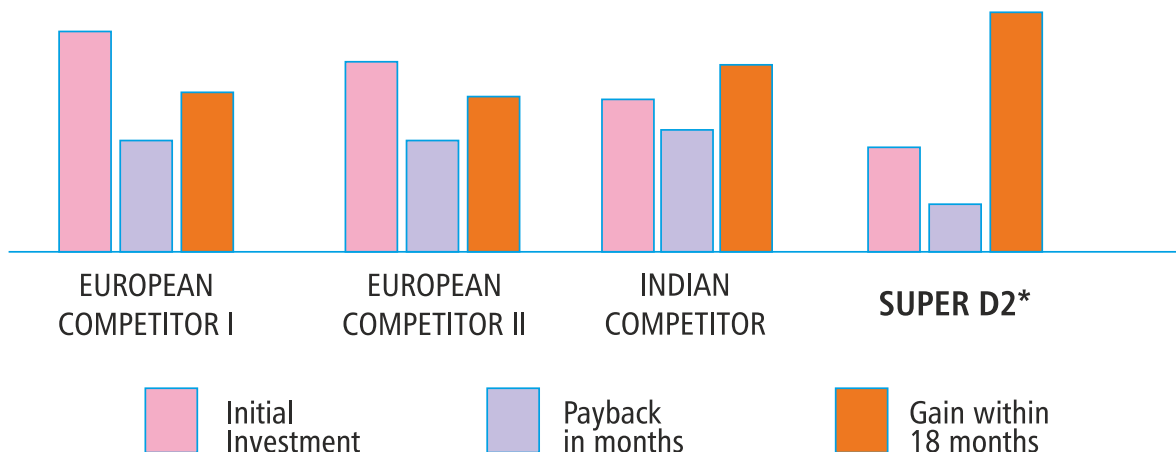

DURING START/STOP - MORE DEFLECTION
RANGE LIMIT OF SLIVER MASS RESULTING
IN LONG TERM FAULTS

SUPER D2 AUTOLEVELLER SYSTEM

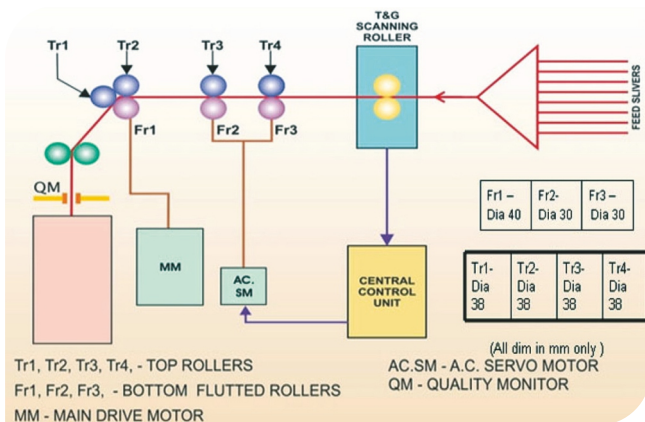

NEGLECTIBLE DEFLECTION RANGE LIMIT OF
SLIVER MASS RESULTING IN LONG TERM
IMPROVED QUALITY RESULTS WITH D2

QUICKER PAYBACK WITH SUPER D2

*12 TO 18 MONTHS

SUPER D2 AUTO LEVELLING CONCEPT

The Auto-Leveller System is built around latest High Technology Data Acquisition System, Hi Tech Sensors, Highly accurate AC Servo Motors and High Speed Industrial Plcs.

SALIENT FEATURES

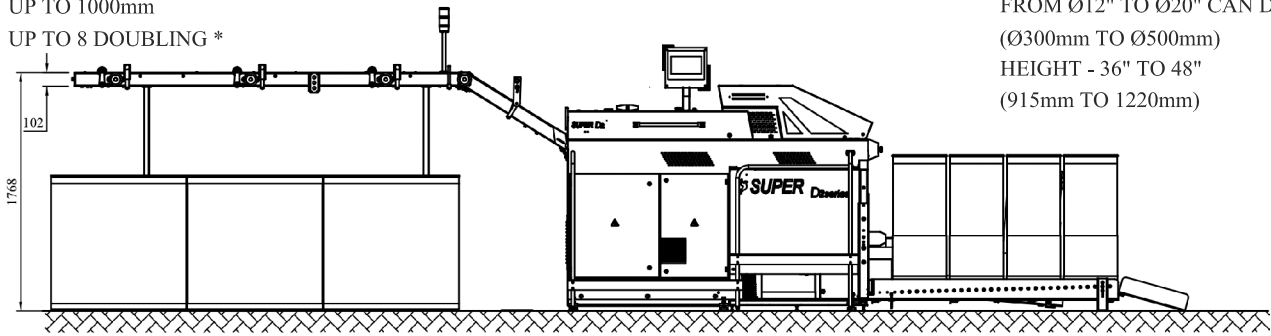

- Most Reliable Tongue & Groove system for scanning Infeed sliver irregularities @ every 1 mm.
- Latest Electronic Servo Drafting System. (No Draft Gear change).
- Hi-tech AC Servo drive for maximum flexibility.
- The Main Drive Motor is controlled by advanced module inverter drive.
- Innovative method of Automatic Sliver Insertion in to the coiler.
- All parameters are Digitally monitored & Controlled by easily accessible Touch Screen Interface.
- Automatic Top Arm Release system during overlapping conditions.
- In Built Inline Quality Monitoring system.
- Automatic can changer comes as a standard fitment in all Machines.

S.No	TECHNICAL DATA	SUPER D2
1.	No of Delivery / Machine	1
2.	Maximum Delivery speed (Mechanical)	up to 1000 Mts/min
3.	Draft Range from	4.0 to 10
4.	Range of Staple Length	20 mm to 75 mm
5.	Delivery Hank	up to 0.3
6.	Drafting Arrangement	4 over 3
7.	Normal Rating of Main Drive Motors (a) Main Motor (b) Servo Motor	5.5 kW 3.5 kW
8.	Normal Rating of Auxiliary Motors (a) Suction Motor (b) Can change Motor	1.5 kW 0.37 kW
9.	Can Dimensions at Delivery	Dia 12" to 24" (300-600mm) Height 36" to 48" (910-1220mm)

SUPER - D2 DRAW FRAME FLOOR PLAN

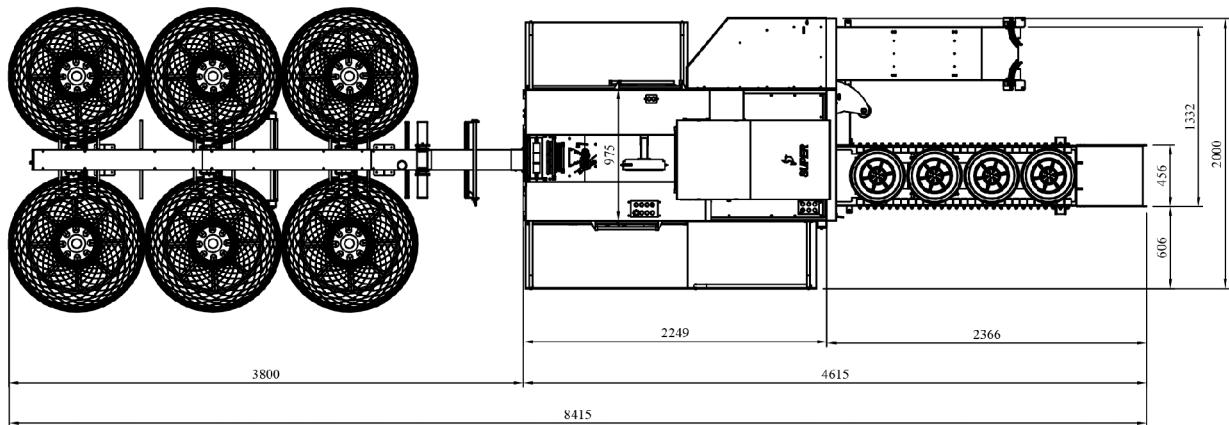

*FEED CANS

UP TO 1000mm
UP TO 8 DOUBLING *

*DELIVERY CANS

FROM Ø12" TO Ø20" CAN DIA
(Ø300mm TO Ø500mm)
HEIGHT - 36" TO 48"
(915mm TO 1220mm)
